How to Use Pages 15 and 16

Copy the map for each student. The map can be used in several ways.

- For an independent student activity, copy the directions below for each student.
- For a cooperative-learning activity, divide students into small groups. Copy the directions for each group. Have students work together to complete their maps.
- For a teacher-directed activity, make a transparency of the directions and project them onto a screen. Cover the directions with a sheet of paper, sliding the paper down to reveal one step at a time as you assist students in completing their maps or as you complete an overhead transparency of the map along with your students.
